

Beginning collective efforts and actions to prevent and reduce corruption in business

On 29th August, **EuroCham Vietnam** and **Towards Transparency (TT)** signed a Memorandum of Understanding (MoU) concerning cooperation to promote **business integrity** in Vietnam. EuroCham Vietnam and TT agree to collaborate in the development and implementation of **business sector initiatives, events, seminars** and other activities that promote **collective action** towards higher integrity among the business community in Vietnam.

“I am very happy to sign the MoU concerning **cooperation** between TT and EuroCham. It is the beginning of a series of **collective efforts** and action to prevent and reduce **corruption in business**. It’s also a vivid manifestation of companies’ willingness to practice and uphold integrity. I do hope and believe that there will be more **chambers** and **individual companies** to join us because doing business with integrity is the key to securing long-term success and sustainability,” said Dao Nga, Executive Director of TT.
